

## PROJECT BRIEF

# JACK C HAYS HIGH SCHOOL

**Project Type:**

School

**Application:**

Shower drain repairs

**Location:**

Buda, TX

**Project Dates:**

May 1 – June 1, 2018

**Project Owner:**

Hays CISD

**Contractor:**

Bartlett Cocke General Contractors

**Products:**

Rapid Set® Cement All®, SET Control®

“Changing Lives One Student at a Time” is the motto for the Hays Consolidated Independent School District (CISD). Located in North Central Hays County, the Hays CISD reaches more than 221 square miles and serves more than 20,000 students. One of two high schools in the district, John C Hays High School was named after John Coffee Hays, a captain in the Texas Rangers and a military officer of the Republic of Texas.

The project consisted of repairing shower drains which were too flat and not draining properly. The project team chipped around the drain to create a slope, utilized a hand held mechanical mixer and applied Cement All® at 3/8-inch with a steel trowel to a feather edge. Cement All was chosen because of its high bond properties and ability to be applied at a thin application.
